

HErZ Summer School 2024

Modern Methods for Atmospheric Profiling

A hands-on course for Master students and early-stage PhD candidates

Are you interested in:

- Learning how atmospheric profilers work?
- Actively participating in a meteorological field campaign?
- Performing a first research project?
- Getting to know senior scientists and potential employers?

For registration/application contact:

herz_summerschool@listen.uni-bonn.de until April 5, 2024

Important course parameters for all participants:

- Kick-off: April 15, 16:00 CEST (hybrid format, Köln/Bonn), more information after registration
- Preparatory seminar: Mondays, 16:00 (bi-weekly, hybrid)
- Summer School: Forschungszentrum Jülich, August 12 – 23
- Summer Semester 2024: 6 ECTS achievable points as an elective module (only relevant for Master students)
- Key-note lectures, discussion rounds, summer school conference, excursion, BBQs & more joint activities...
